

Product Information

Load template

For tests according to standards EN 1022, ISO 7173 and EN 1728

consisting of:

- steel sheet contour templates, coated RAL 5017
- arrow-shaped marking for the loading points "A" and "B"
- marking of the load point "C" (stool)
- integrated additional weight for a seat mass 20 kg;

The additional weight is adjustable so that the the effect line of the gravitation to at least $\pm 10^\circ$ inclination runs by the point A.
